

THE NINE

THE NINE ve İLHAMIN HİKAYESİ

Bir düşünün...

Moonlight Sonatı'nın notaları ya da birçok efsaneye ev sahipliği yapmış Asya toprakları veya dünyanın gelmiş geçmiş en büyük kalem üstatlarından Dante'yi düşünün!

Hepsinin ortak bir noktası var: İlham.

Hayattaki her buluş ve tasarımın başlangıcı olan ilhamı tasarımdan ayrı tutmak düşünülemezdi. Biz de "ilham"ı tasarım yolculuğumuzun yol arkadaşı ilan ettik ve THE NINE'ı "ilham" üzerine inşa ettik.

Bazen müthiş bir "ilham"ın sonucunda ortaya çıkmış bir eseri hayal ettik, bazen "ilham"a ev sahipliği yapan büyümlü bir atmosferi... Bazense sadece "ilham"ı sihirli bir değnek gibi kullanan üstatları andık.

THE NINE böyle bir sürecin sonunda oluştu ve isimlerine kavuştu.

THE NINE & STORY OF INSPIRATION

Imagine...

The notes of Moonlight Sonata or the legendary Asian lands or Dante, one of the greatest writers ever!

They have one common thing: Inspiration.

Inspiration, the beginning of every invention and design in life, is an inseparable part of design. We have declared inspiration as the companion of our design journey and we built THE NINE on "inspiration".

Sometimes we have imaged a work that emerged as a result of great inspiration or a magical atmosphere with inspiration. Sometimes we only remembered masters who used inspiration as a magic wand.

THE NINE was formed at the end of such a process and it was termed.

The background is a dark, almost black, surface with a complex marbled pattern. This pattern consists of numerous thin, light-colored (white and cream) veins and streaks that crisscross the entire area. Some of these streaks are thicker and more prominent, running diagonally from the top-left towards the bottom-right. A white rectangular label is positioned in the center of the image, containing two sections of text.

Now I have this little but she
Walking now with velvet feet

How beautiful the world is
Now the air fills with happiness
